Subject: Sequence search request 09/944,326

RECEIVED

NOV-6 2003

Please search SEQ ID NO:4 for 09/944,326 in the commercial databases, pending files (interference) and pre-grant pubs. Please perform this search as

- a) a regular search for any sequence comprising SEQ ID NO:4 and
b) a length limited search wherein the length of the oligonucleotide hits is limited to less than 50 nucleotides in length

Thank-you!

Karen A. Lacourciere Ph.D.

Pending Nucleic Acid and Pending Amino Acid database searches generate two sets of results each. The Pending databases have been split into two parts to reduce the amount of time required for their daily updates. This results in more machine time being available for processing searches.

Searches run against the Nucleic Acid Pending database produce two sets of results, with the extensions .rnpm and .rnpn

Searches run against the Amino Acid Pending database produce two sets of results, with the extensions .rapm and .rapn

Because they contain data that is confidential, the results of Pending database searches should not be left in the case .
